CAREER SUMMARY

Passionate about building stuff that matters and apps that actually works. Developed and maintained 10+ iOS apps for apple mobile devices geared towards solving different social & financial challenges.

Founded a software development training school/agency, graduated 15 students, 12 currently enrolled.

My passion has driven me to an incredible learning path, and I have a great drive for learning new things – seeing that learning never ends.

TRAINING & CERTIFICATIONS

- iOS app development with Swift 5
- Data Structures and Algorithms
- Google IT Support Professional Certificate – Technical Support Fundamentals
- Retrieving, Processing and Visualizing Data with Python
- Accessing Web Data with Python
- Tables, Data and Networking in iOS

INTERESTS

Learning, travelling, Teaching & Music.

REFERENCE

Available on request.

SKILLS

- Proficient with the use of Xcode IDE.
- Swift 5 for iOS, HTML, Python & C++ programming language.
